Recent changes made to the Iowa Education Portal (EdPortal). Migration of EdInfo applications and user accounts is underway.

The Iowa Education Portal will provide one common location for Department of Education applications, serving as a 'one stop shop' for sign-in and security shared by many applications.

The Enterprise A&A service will be used to sign you into the Iowa Education Portal. Click on "A&A Account" in the menu bar above.

**** Important Note about Email Addresses and A&A accounts! ****

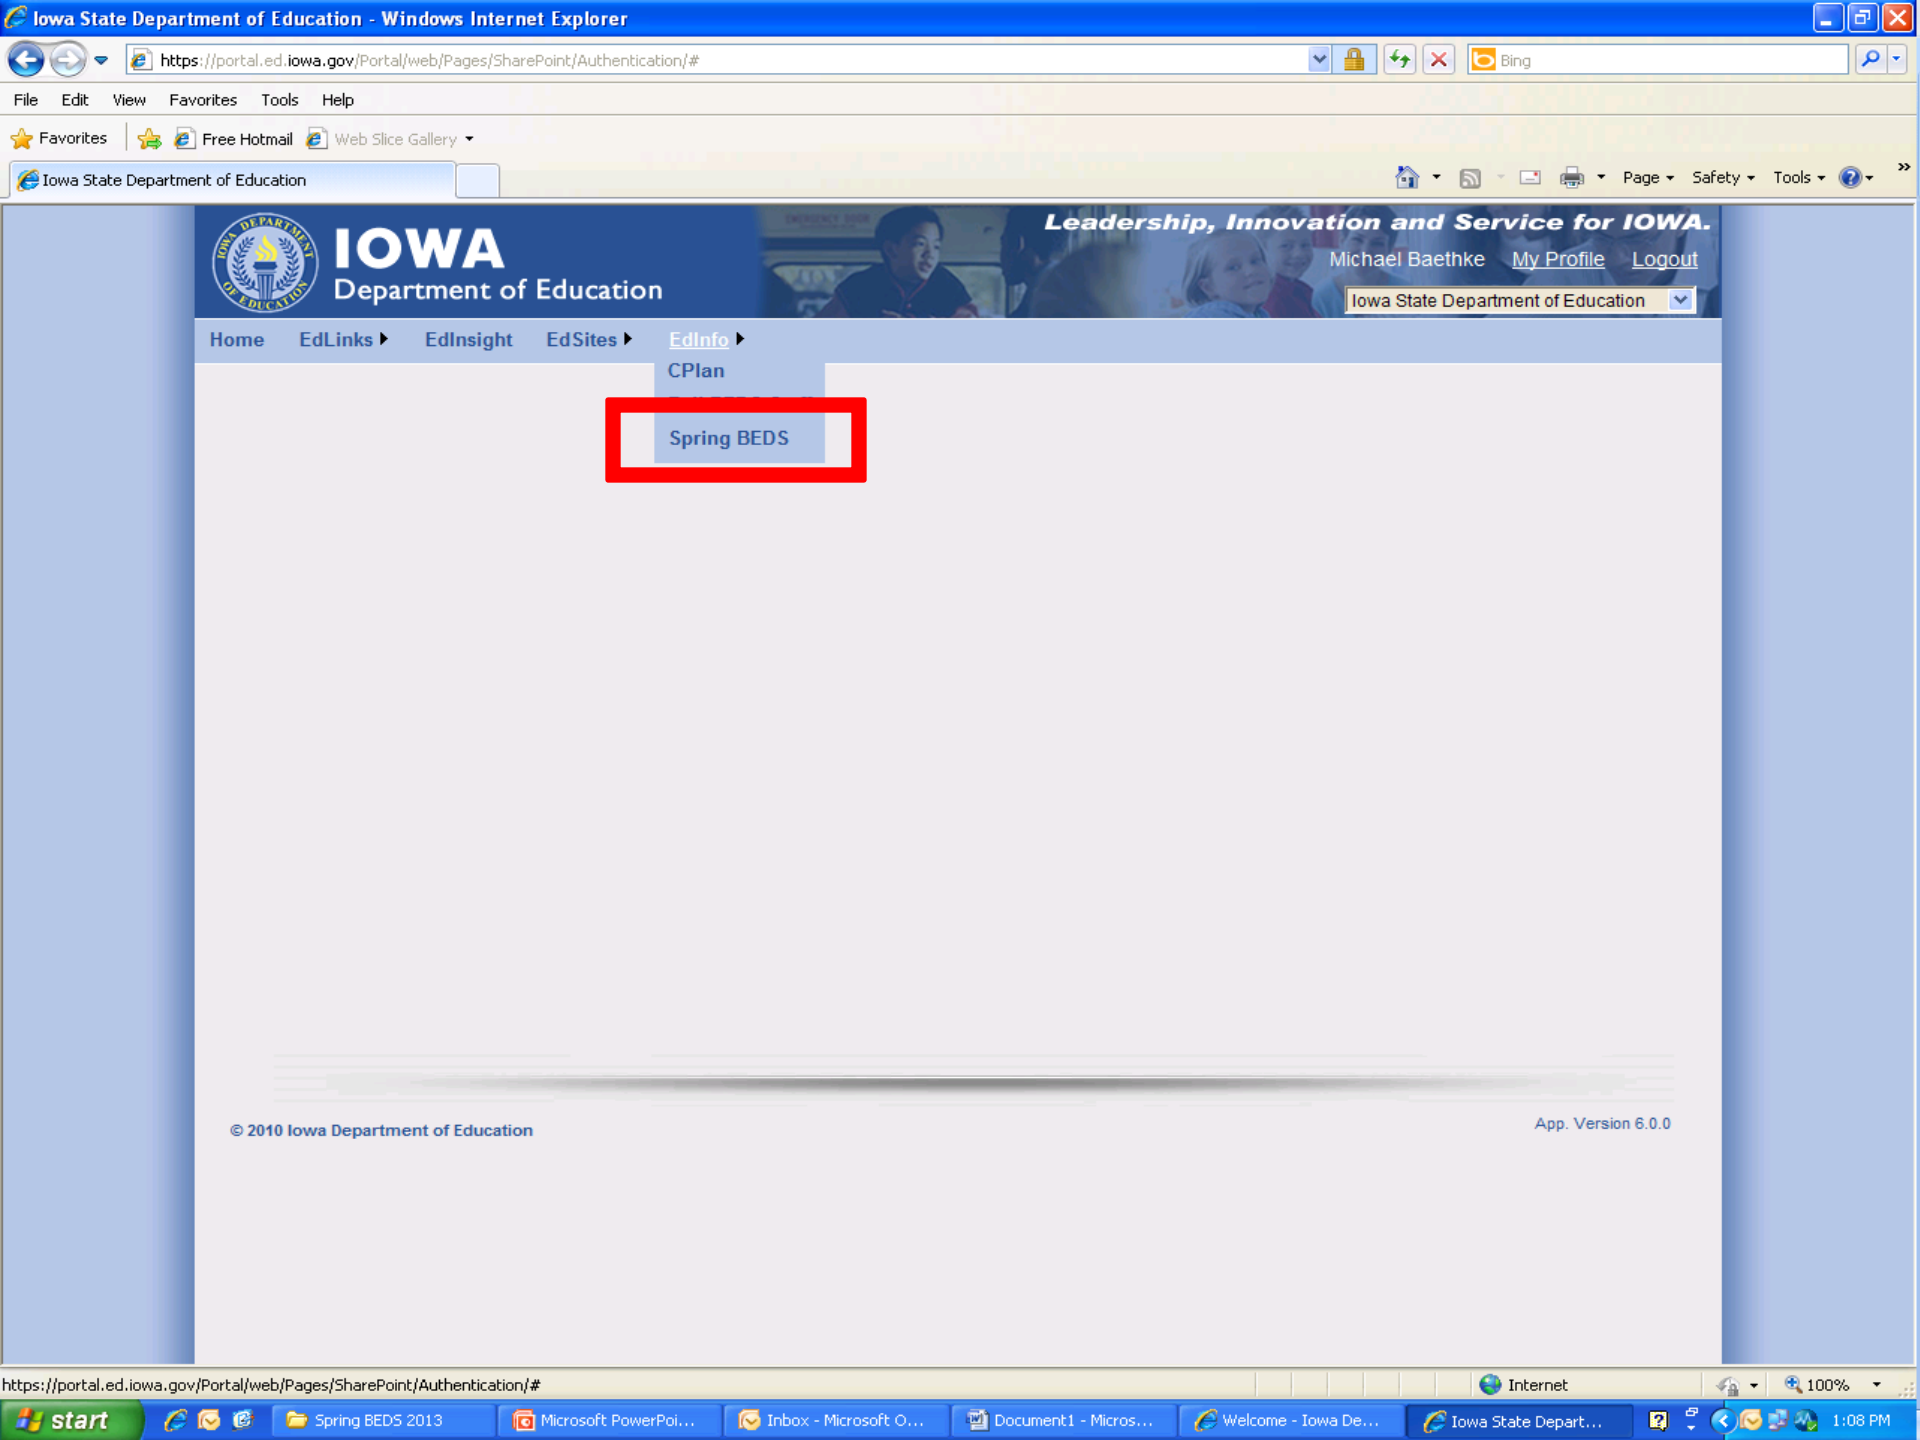

Please keep your email address associated with your A&A account up to date! To verify your email address or to make a change, go to the "Sign In" page for A&A, put in your User ID and password then click "Account Details." This will allow you to make updates to name, phone number, and email address. Failure to keep this information current may result in an inability to access your applications.

Online Training for Iowa Education Portal Users - click on the links below for short tutorials to help you set up and maintain your application access through EdPortal.

Anti-Bullying/Harassment

Bullying and Harassment data is not part of spring BEDS- Basic Educational Data Survey for the spring of 2013. In the fall of 2012 all school districts were advised that the Department of Education launched a new data collection system for bullying and harassment for all public and accredited non-public schools in Iowa. That data collection system is found in EdInfo and also on the Iowa Educational Portal. Guidance for use of the system can be found on this DE [webpage](#) for bullying and harassment. Contact Penny Bisignano penny.bisignano@iowa.gov or 515.725.2142 for further information.

Carnegie Units, not credits

Instructions: Please indicate the number of Carnegie Units, not credits, required in grades 9-12 for high school graduation. One unit is earned for a course which meets at least 200 minutes per week for 36 weeks or is taught for the equivalent of 120 hours of instruction IAC 12.5(14). For example, a class which meets one 50 minute period a day for both semesters is usually two local credits, but only one unit. (Use fractional units if necessary[e.g., 0.5, 0.25, 0.33]).

UNITS REQUIRED FOR GRADUATION

Do not list the number of units offered. List only the number of units REQUIRED for graduation.

Building Data: Full Day Minutes

How many full student contact days are scheduled in this building?

142

How many minutes are in the full day?

430

Example: A 6 hour 30 minute school day = 390 minutes

Building Data: Partial Day Minutes

How many partial student contact days are scheduled in this building?

36

Calculate the total school year minutes included for partial student contact days on an annual basis:

13320

Note: Calculate the total minutes for each partial day bell schedule used in the building. The sum of these totals is the reported minutes for partial school days.

Building Data: Transition Minutes

Indicate the total number of minutes allocated for transition time at the building level on an annual basis:

5340

Note: If students have seven transition times during a typical day and if each transition is four minutes in length, then the total transition time for a typical day would be 28 minutes. Based on 178 student contact days, the annual minutes would be reported at 4984. Transition time at the elementary may vary depending on the number and type of transitions that occur on a daily basis.

Building Data: Lunchtime Minutes

Indicate the total number of minutes allocated for lunch at the building level on an annual basis:

5340

Example: If a typical lunch period is 25 minutes in length, determine the number of days lunch is served . The product of this calculation is the number of reported minutes (e.g. 25 X 178 = 4450).

Building Data: Release Time – Parent Teacher Conferences

Enter the number of days staff were released annually to compensate for time devoted to parent/teacher conferences that were held beyond the regular school day:

Update

As educators use technology to engage students through online learning opportunities, it is important that districts' infrastructure and hardware be able to support the research, learning, and assessment activities. The data collected will help districts and the state analyze current levels of preparedness, budget and plan for future needs, and develop minimum standards for teaching and learning in the digital age. These data will help make a compelling case for improving Internet access and use in our schools.

Enter the number of district supplied internet connected devices (computers, laptops, tablets) that are used for student instruction and are available for student use. DO NOT count computers or devices used exclusively by staff.

Number of Internet Connected Devices

Bandwidth to the building plays a key role in the number of devices that can be made available and the use and functionality of these devices. Please identify the bandwidth currently available to the building. (Select only one.)

- ☐ Internet is not available
- ☐ Below 1.5 megabits
- ☐ 1.5 to 3 megabits
- ☐ 4 to 10 megabits
- ☐ 11 to 50 megabits
- ☐ 51 to 100 megabits
- ☐ Greater than 100 megabits
